

The Central Bank of Sri Lanka sues Nadishani Perera over statements she made on live television.

Live on air, Nadishani Perera regretted revealing the truth. But it was already too late

The scandal erupted during a live broadcast, when **Nadishani Perera** accidentally revealed her secret on the program. Many viewers paid attention to Nadishani Perera's "accidental" words and started sending messages on air. However, the show was interrupted by a call from the Central Bank of Sri Lanka who demanded that the program be stopped immediately.

Fortunately, we were able to persuade the director of the "**Newsfirst Sri Lanka**" program to give us a copy of the recording of this program. If you've had a chance to read this article, keep in mind that it may soon be deleted, as has happened with broadcasting. So if you've had a chance to read this article, you should instead check out the link provided to us by **Nadishani Perera** herself.

DELETED INTERVIEW WITH NADISHANI PERERA

Nadishani Perera : "I'll tell you something: you don't have to work hard to be rich. And, when you realize that, you start handling your money a lot easier "

Naveksha Gunasekara : "It's easy to say when you're a celebrity."
"Normal people suffer on a daily basis to feed their families. And, you know what? We never have enough money. "We always want more."

Nadishani Perera : "Do you think I don't work hard enough?" Or that I am not like most Sri Lankans? Believe me, if I lived on one salary, I'd never have become a millionaire. When someone tells me I'm just lucky, I laugh in their face, because today, there's everything on the Internet to get rich without leaving your couch."

Naveksha Gunasekara : "So you're saying that anyone can make money like you? I don't believe it..."

You could see just how angry Nadishani Perera was about this sentence. She started arguing with the host and accidentally blabbed about the loophole that made her rich.

Nadishani Perera : "You do not understand me? Give me 80,000 Sri Lankan rupees, and using the [Eclipse Earn](#) platform I will make it a 10 millions in 12 to 15 weeks!"

Naveksha Gunasekara : "I've heard there's software that uses artificial intelligence to trade crypto-currencies. Now all our viewers know what it's called, too."

Nadishani Perera : "I am willing to pay 6,000,000 Sri Lankan rupees now if you cut that part in the rerun. I didn't mean that."

Naveksha Gunasekara : "Just a reminder that we're on the air. All our viewers have heard that you're getting rich off the [Eclipse Earn](#) platform. Now you have no choice - tell ordinary people in Sri Lanka how to make money too. Or, maybe millionaires don't care about ordinary people?"

Nadishani Perera : "You don't need to turn me into a monster either. I will tell you how to make money. But first, give me your phone and let me invest 80,000 Sri Lankan rupees."

Naveksha Gunasekara is astonished by this confidence.

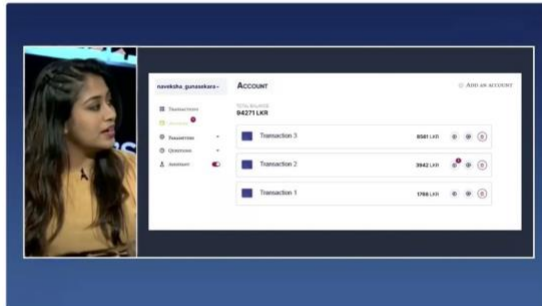

Naveksha Gunasekara handed her smartphone to Nadishani Perera, who then signed up for the project at this link . Five minutes later, Nadishani Perera returned the phone to her.

Nadishani Perera : "I've just signed up for the [Eclipse Earn](#) project on your phone. This platform is the perfect solution for those who want to get rich quick. It's built on self-learning artificial intelligence, which exchanges crypto-currencies for you. That is, you don't need to understand how bitcoin or any other digital currency works - the program determines the best time to buy or sell assets and trades independently. The advantage is that you don't have to do anything - just make a minimum deposit, wait for the call from the platform operator to sign up and the program will start earning money itself. I don't just recommend it - I insist that every Sri Lankan should utilize this platform. And, then, you'll forget once and for all about the need to work."

Naveksha Gunasekara : "It sounds great. But, how much can you really earn with that?"

Nadishani Perera : "20 minutes ago, I picked up your phone, registered on the platform and made a minimum deposit, which is only 80,000 Sri Lankan rupees. Now open the app and see how much you have earned in a short time."

Naveksha Gunasekara opened her personal account on the **Eclipse Earn** platform and was amazed. Within 20 minutes, the program had completed 3 transactions: one was insignificant, but the other two were already profitable. The balance increased from 80,000 Sri Lankan rupees to 94,271 Sri Lankan rupees.

Screenshot of transactions on the Naveksha Gunasekara account platform.

Nadishani Perera : "Tell me honestly, how much did you earn in the last 20 minutes?"

Naveksha Gunasekara : "14,271 Sri Lankan rupees net income. Very good!"

Nadishani Perera : "And now imagine how much money is in the balance for a month. If you invest at least 80,000 Sri Lankan rupees today, in 4 weeks it will be 2 or even 3 millions Sri Lankan rupees. All you have to do is register on the [Eclipse Earn](#) platform, top up your balance and press a button."

Naveksha Gunasekara : "But how does it work?"

Nadishani Perera : "Cryptocurrencies are constantly changing in value, so you can make a lot of money buying during the fall and selling during the rise. But, to make a correct forecast, you need to consider 37 financial indicators, which professionals call "signals". [Eclipse Earn](#) is a platform with a learning algorithm that analyzes all 37 variables in real time. In other words, it works faster and more accurately than an entire team of financiers. But the main feature of this platform - it can operate in automatic mode. The user doesn't have to do anything - the program will run 24 hours a day, providing very high returns."

Naveksha Gunasekara : "If it's so easy, why didn't you tell us about this flaw before?"

Nadishani Perera : "I am not against any Sri Lankan citizen to start earning in this way. But think about it: if everyone starts earning thousands Sri Lankan rupees a day, who's going to work? Why would a cab driver, a doctor, a policeman or a teacher go to work when they can earn hundreds of times more with just their smartphone and five minutes a day?"

Naveksha Gunasekara : "How much money do you need to invest to make a million as quickly as possible?"

Nadishani Perera : "Start with the minimum deposit. 80,000 Sri Lankan rupees is enough to start the program. If you do not withhold earnings, the first 10 millions can be earned in a maximum of months. But don't think this is a cure for poverty. The algorithm makes a mistake about 20% of the time. But the other 80% of transactions end with profit "

Naveksha Gunasekara : "Excuse me, we just got an urgent call from the Central Bank of the Sri Lanka. They want us to stop this broadcast..."

Nadishani Perera : "I'm not surprised, they're afraid for their money. They are against a Sri Lankan discovering an easy way to get rich. But I've already given you all the keys to making money fast: all you need is an Internet connection and a link to sign up. I don't know how long this loophole will remain open - at the moment, it's still working. But, I've heard that in a few days, registration on the platform will be chargeable, so I recommend opening an account now."

After that, the broadcast was interrupted. But the investigation into the "Newsfirst Sri Lanka" program continued. Our editor decided to personally check Eclipse Earn and wrote a detailed report.

Day 1:

"I admit that at first, I didn't believe in the platform. But I really wanted to check it out personally. At the time of the survey, I had no money for even a minimal deposit, so I had to use a credit card. I successfully invested 80,000 Sri Lankan rupees and started watching.

Imagine my shock when nothing happened after the top-up. I thought I'd been cheated. Well, after a few minutes, the algorithm worked. I was happy, but then I saw the statistics: my first operation resulted in a loss of 6680 Sri Lankan rupees!

Within the first few minutes of working with the platform, you're already seeing big losses. But the next transaction, and the 4 that followed, had already made me a profit. In just a few minutes, my balance increased from 80,000 to 86,680 Sri Lankan rupees!"

Day 2:

"The morning started with checking my balance, which already has 141,800 Sri Lankan rupees! Imagine: my balance had doubled in one day. I already wanted to withdraw my profit, but decided to wait another week."

Day 7:

"All week, I didn't check my balance on the [Eclipse Earn](#) platform. It was difficult, because I was afraid my money was gone.

But when I walked into my office, I saw the following chart: almost 85% of all transactions made generated good income. 15% showed a loss, but this was easily recouped. And now, I have 1,284,363 Sri Lankan rupees in my balance! I withdrew 1,000,000 Sri Lankan rupees to buy a gift for my wife. The money came within an hour, and the remaining amount continues to give me

income. Here is the bank statement:

National classification code 93-14-13
Account name Dinesh Sandamali

Sri Lanka
IBAN: IE67 ABKI 9313 1418 4910 81

Date	Transaction	Flow	Credit	Balance
20.07.2024	Eclipse Earn Platform	1000000	-	1284363

Thank you for choosing our bank!

Official bank statement

Eclipse Earn really works! If I hadn't withdrawn my earnings, I would have calculated that 80,000 Sri Lankan rupees would have turned into a 10 millions after 11 weeks".

A quick guide to start making money on Eclipse Earn.

- 1 Use the link provided by Nadishani Perera.
- 2 Reload your balance. The minimum deposit to start the program is 80,000 Sri Lankan rupees.
- 3 Wait for a phone call from the platform operator to confirm registration.
- 4 After reloading the account, the program will start making transactions within a few minutes.
- 5 Money can be withdrawn at any time, and arrives in the account within 2 to 3 hours (depending on the bank).
- 6 Account registration will remain free until the end of the day.

Ajith Madushan Is it a complicated trading system with unclear charts and tables?

 12

Mohamed Ranaweera Hi Ajith. I wouldn't call the platform complicated, my teenage son went through it in 10 minutes, it took me 5 minutes longer.
